ABOUT AICA

JAPAN'S TOP MANUFACTURER OF HIGH PRESSURE LAMINATE

Aica Kogyo was established in 1936. Since then, we have continued to grow steadily as a chemical manufacturer possessing the largest share of the Japanese market. We create materials, designs and technologies.

HISTORY

1936

Chemical division of Aichi Tokei Denki spun off to create Aichi Kagaku Kogyo. Company begins offering spark plugs for aircrafts, safety glasses.

1960

Launched High Pressure Laminate.

1966

Changed company name to "Aica Kogyo Co., Ltd."

1984

Launched "Color System 105" for solid color.

1994

Launched "Anti-bacterial HPL".

1999

Launched "PURECORE". High transparency milky-white core by original technology.

2008

Launched "CELSUS". CELSUS is anti-fingerprint HPL. CELSUS won the iF DESIGN AWARD 2011.

2014

Launched "WONDER SERIES". Realized through collaboration with the designer.

2019

Launched "Virutect". Virutect is anti-virus HPL. Virutect won the iF DESIGN AWARD 2021.

Acquired Wilsonart's Asia-Pacific subsidiarized.

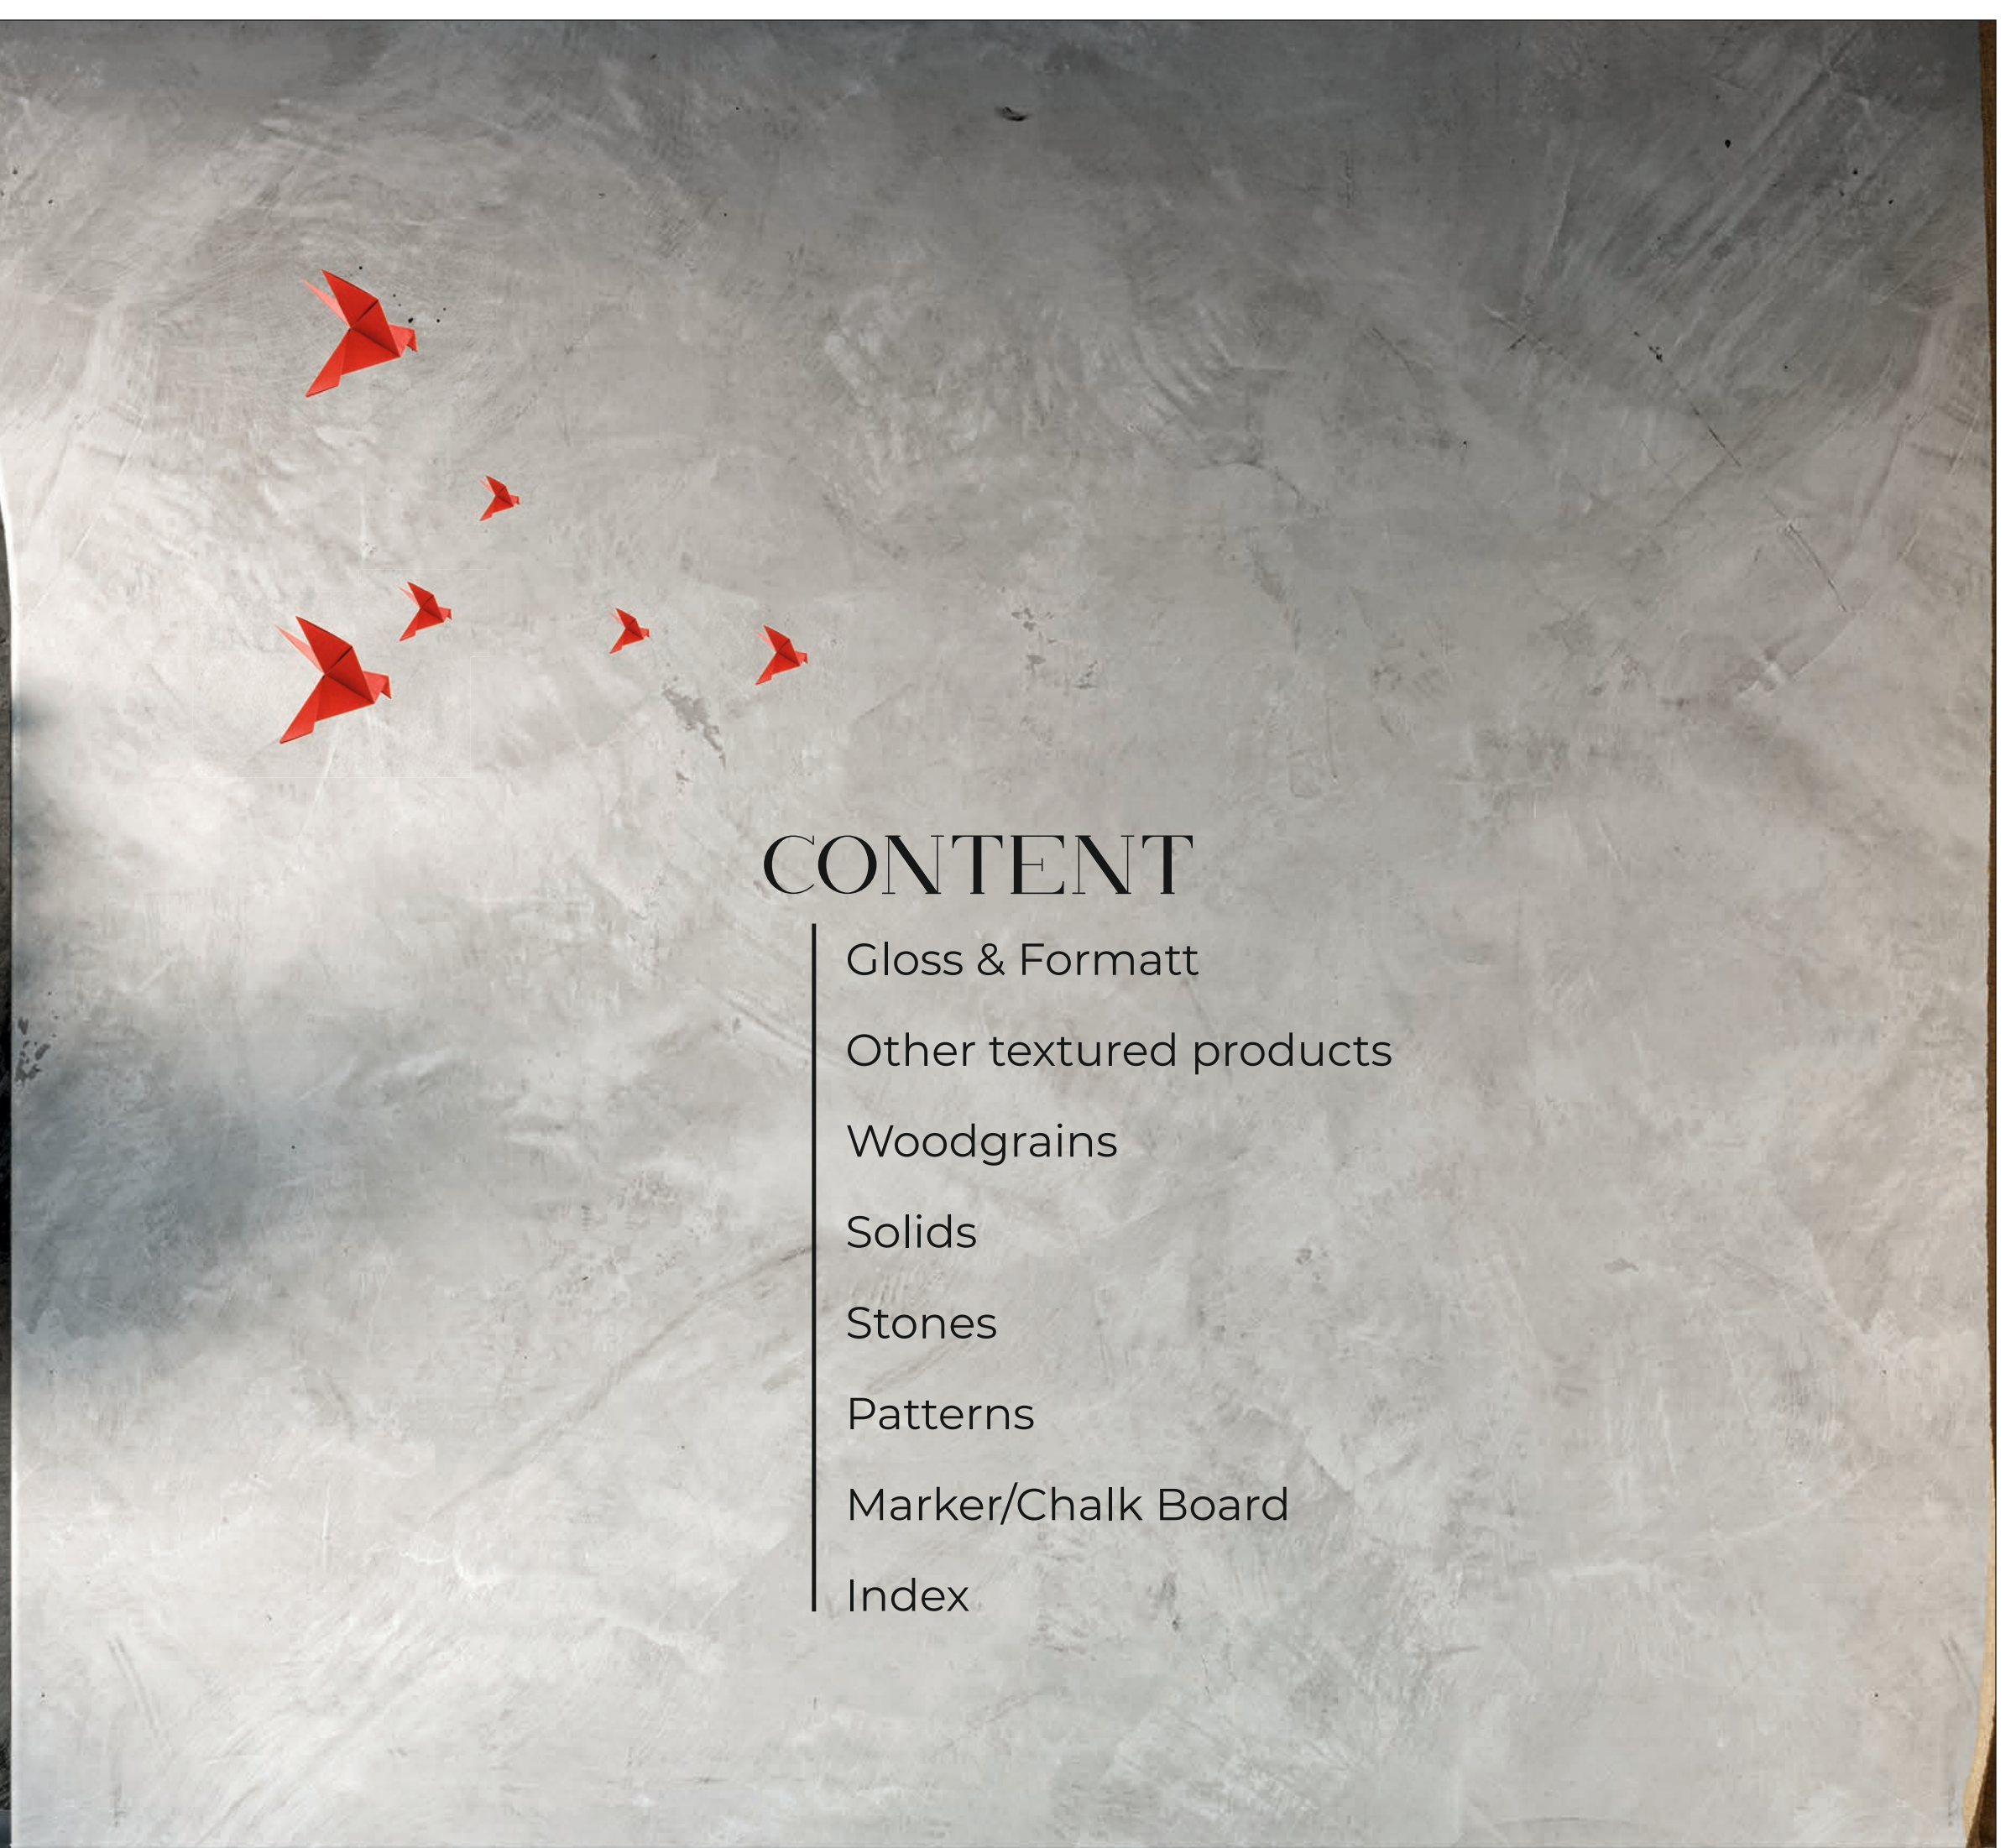

About Theme

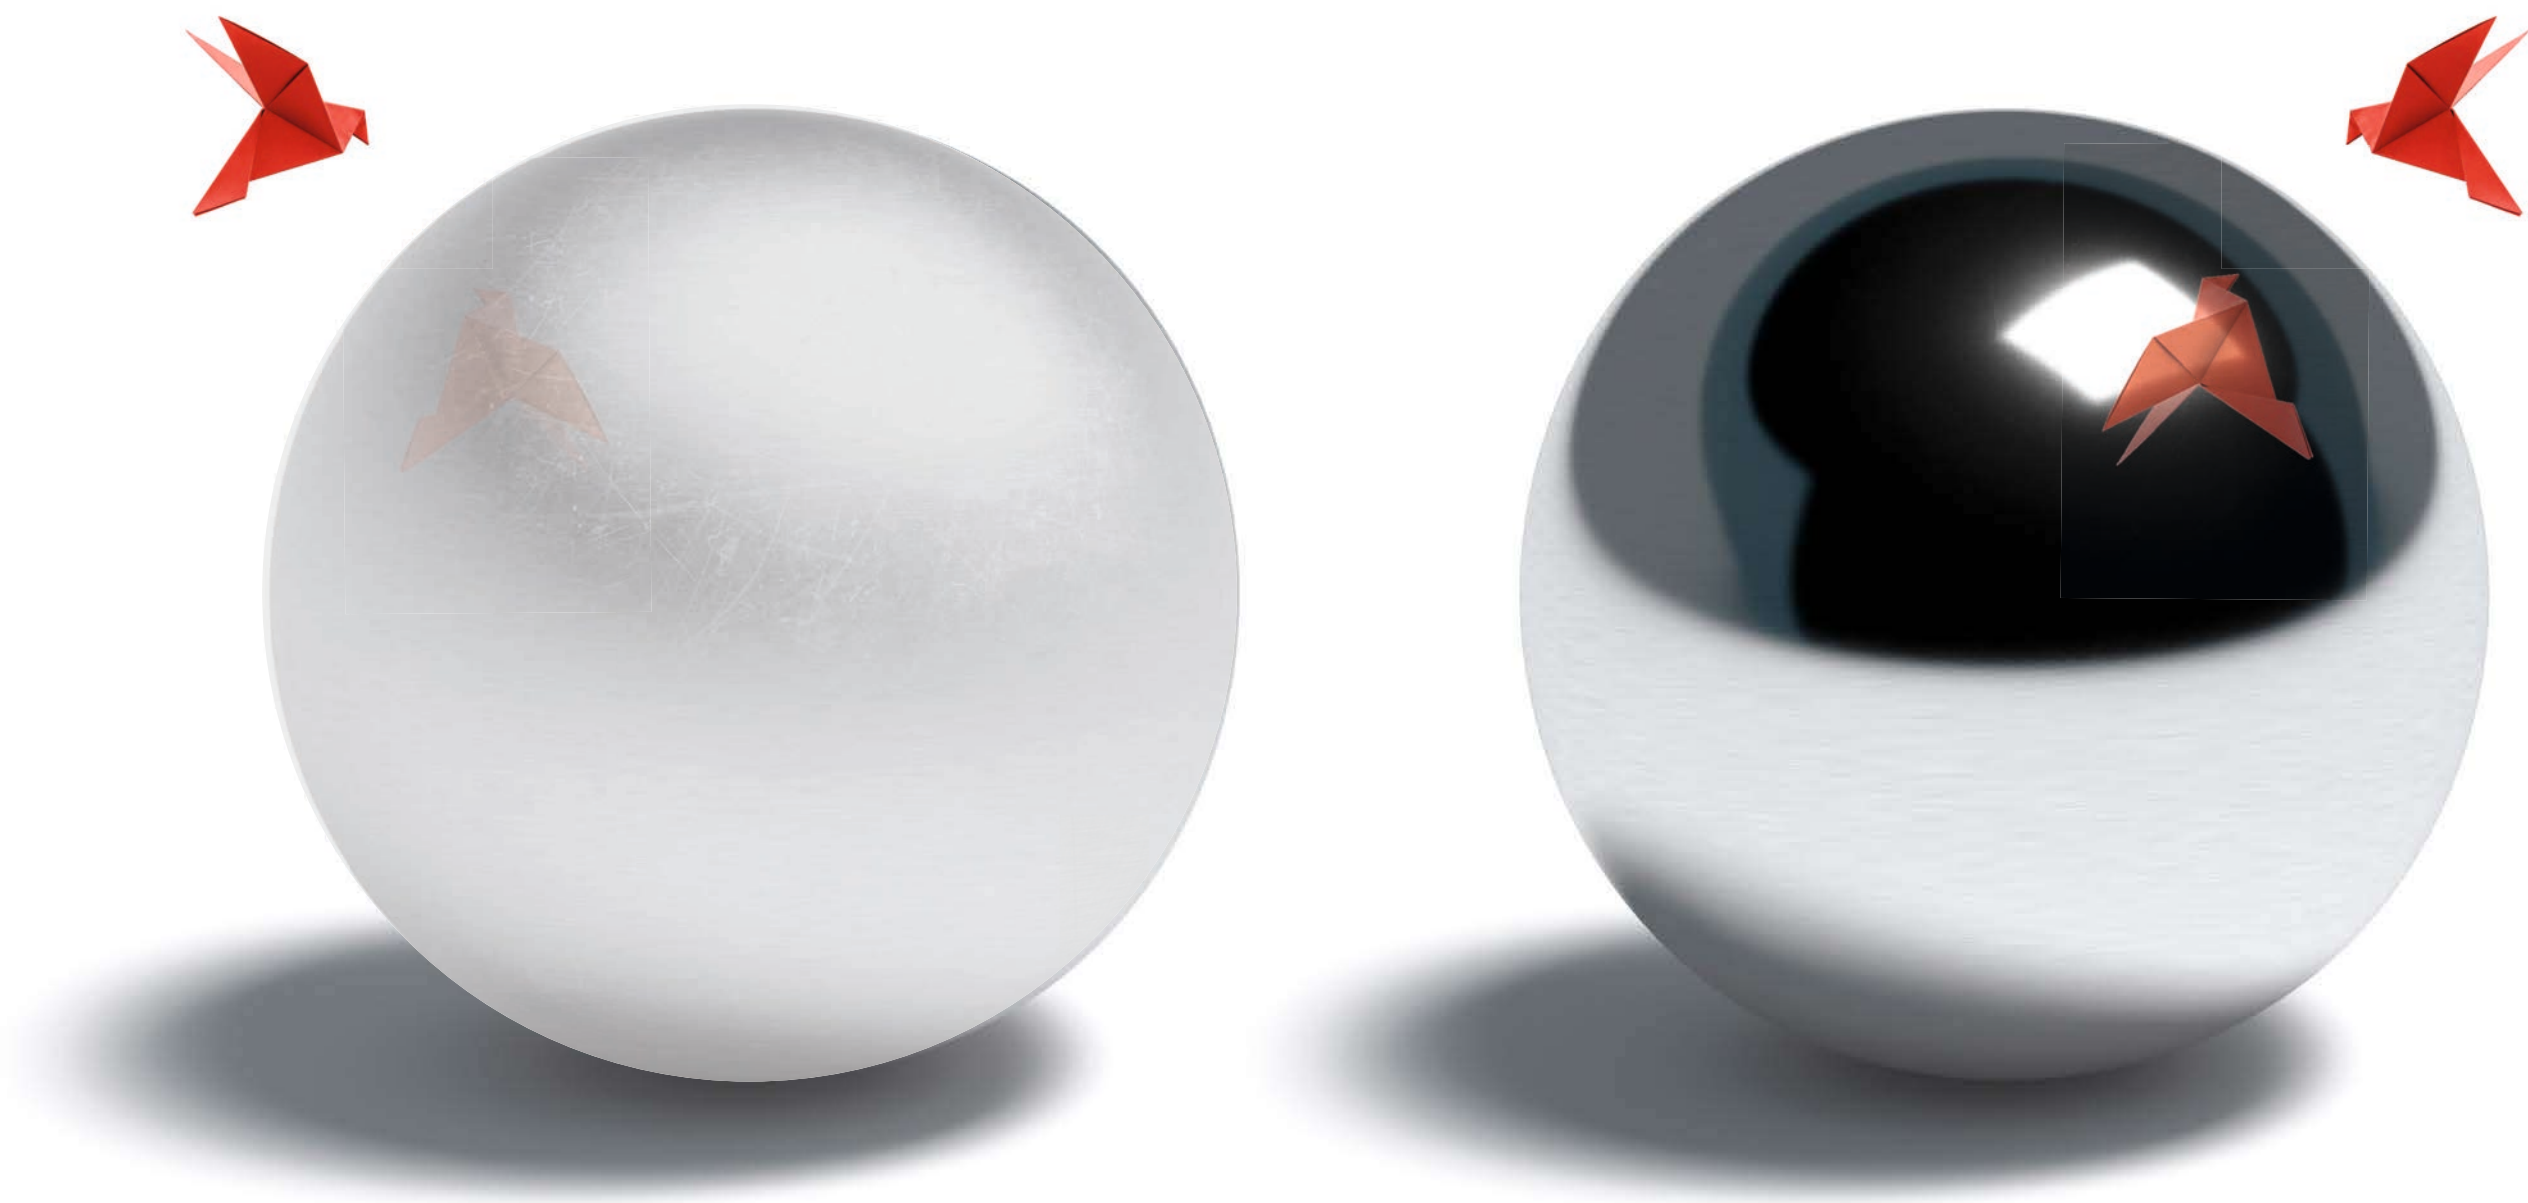

In the context of interior design, the theme of kintsugi is a concept that embraces imperfections and celebrates the beauty of the worn, weathered, or broken. It involves incorporating elements into interior spaces that showcase the history and character of the space rather than concealing flaws. The kintsugi theme in interior design is about embracing imperfections, honoring the passage of time, and appreciating the unique character of every element within a space. It encourages a mindful approach to design, valuing the history and authenticity of objects and materials. Similarly AICA aligns with the Japanese aesthetic of wabi-sabi, which appreciates the beauty in impermanence and imperfection of various laminates designs. Wabi-sabi often feature handmade or vintage items, organic materials, and muted colors, creating a calming and serene atmosphere. Kintsugi-inspired AICA often involve thoughtful and intentional laminates design choices. Each element is chosen for its story, symbolism, or meaning, creating a space that is rich in depth and significance.

A collection of approximately ten origami birds, each made from paper with a unique pattern. The patterns include floral motifs, geometric shapes, and abstract designs. The birds are scattered across a solid blue background, some appearing to float or fly. The colors of the paper range from white and black to various shades of green, red, brown, and blue. The birds are shown from various angles, highlighting their three-dimensional structure.
